

# Clinical Services

## August 2011

The leading mental healthcare charity

As the UK's leading charitable provider of specialist mental healthcare, we have centres in Northampton, Birmingham, Essex and Nottinghamshire. Unlike traditional independent providers, we have no shareholders. As a charity we are in the unique position to reinvest our surpluses into identifying cutting-edge specialist services, state-of-the-art facilities and experienced, dedicated staff.

This allows us to offer regionally-centred care that directly responds to service users' needs, invest in ground-breaking research projects, and provide valid, accountable outcome data to demonstrate success.

With over 1000 beds in 4 geographical regions, this overview provides information on our clinical services and pathways of care.
