TRAUMA INFORMED CARE IN PRACTICE 19TH NOVEMBER 2020

The lifetime impact of trauma and the need for services to adopt more holistic approaches to trauma informed care is becoming increasingly understood. As our knowledge of the sequela of trauma grows, including the impact on support systems, so does the need to develop services that can meet the wide ranging care needs of those who have been exposed to trauma.

SCHEDULE

09:00-09:30

REGISTRATION & WELCOME
