

Specialist adolescent mental health care is closer than you think

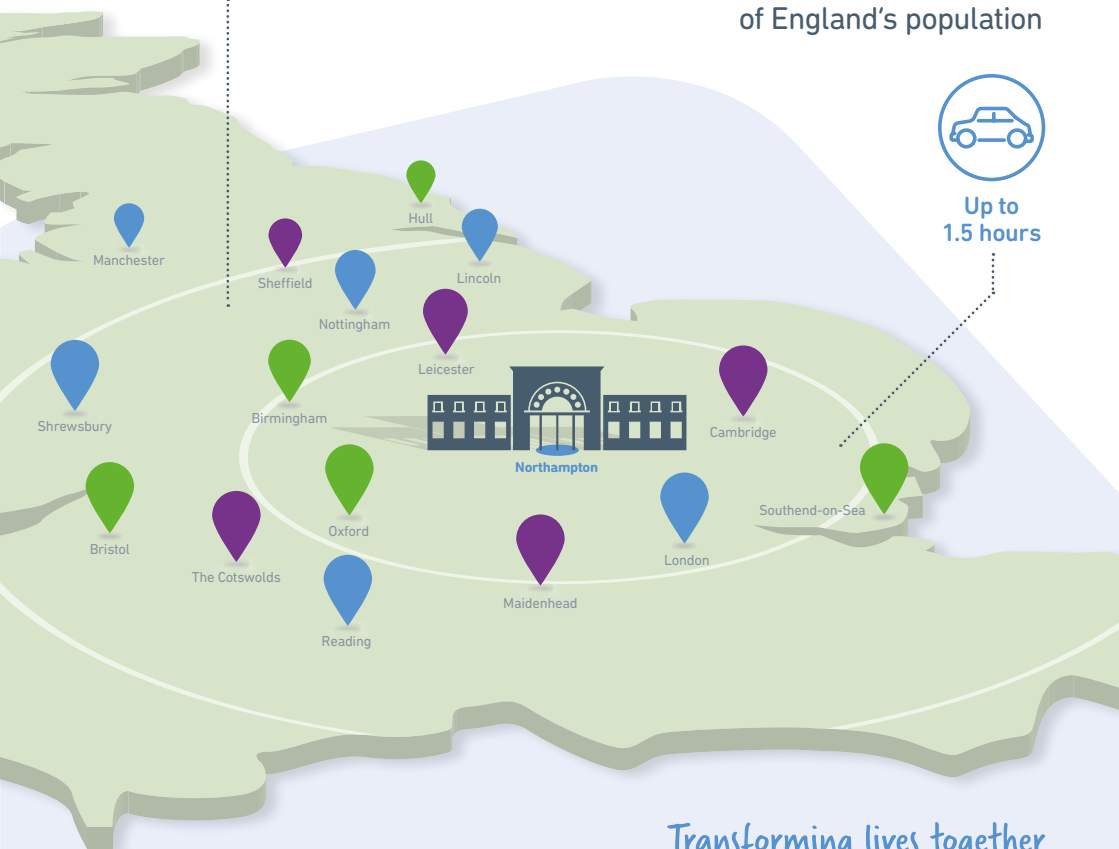

Up to 2 hours

A CAMHS inpatient service centrally
located within a 2 hour drive for 49%
of England's population

Up to
1.5 hours

Transforming lives together

Expert care under one roof

With 110 beds across 11 medium and low secure wards, FitzRoy's strength is its size, enabling us to provide world class facilities and resources under one roof, with an in-house MDT unrivalled in scale.

Who we help

Our Child and Adolescent Mental Health Services (CAMHS) pathway is designed for boys and girls aged 13 to 18 with complex mental health disorders with severe emotional and behavioural difficulties,

intellectual disabilities, mental illness and autistic spectrum disorders.

As experts in CAMHS, we are able to treat a wide range of disorders, including the most challenging and complex.

Outstanding education

St Andrew's College, ranked 'Outstanding' by Ofsted, provides young people with the expertise and facilities to improve academic skills or gain additional qualifications, wherever they happen to be in their educational development, with individual educational programmes developed, based on their needs and as part of their overall care plan.

In addition to the College, FitzRoy House also features an environment that provides young people with space to keep active, space to socialise, space to grow, a space to call their own and space for self-expression.

Sensory room

Branch Out Café

Psychiatry

Arts
therapy

Sport and
exercise

Nursing

"Our aim is simple, to improve the lives and outcomes for the young people we care for, equipping them with skills required to live as independently as possible, closer to communities of their choosing."

CAMHS Clinical Director

Designed for young people
