

2022 – 2023 Results

The college currently has a small number of learners and despite the acuity of their mental health, they achieved outstanding results in the summer series examinations. Please see the table below for a breakdown of these achievements.

Qualification	Grade
1 x L3 Mathematical Studies	E
1 x GCSE English Language	5
1 x GCSE Business	3
1 x GCSE Biology	3
1 x GCSE Maths	4
1 x GCSE English Language	4
185 x AQA Unit Awards	Pass
28 x ASDAN Awards	Pass
24 x Swimming Awards	Pass
1 x Trampoline Award	Pass
3 x The Duke of Edinburgh's Bronze Award	Bronze
21 x The Duke of Edinburgh's Award sections	Pass
3 x NICAS Climbing Awards	Level 1
2 x Food Hygiene Certificates	Level 2

The Future:

The College prides itself on being home to dedicated educational professionals, each a leader in their respective roles. To sustain this high standard, we continuously innovate in our teaching methods and curricula, tailoring our approach to ensure the best possible outcomes for every learner. The AQA Unit Award scheme is becoming increasingly central to our approach, as it allows us to celebrate each student's academic successes and the journey they've undertaken to achieve them. Many of our students might not fully grasp the significant hurdles they've overcome to access the education and opportunities the College provides. To further acknowledge their journey, we're planning to introduce a series of awards that highlight their personal growth and recovery, acting as milestones of hope and achievement in their educational journey.

Curriculum:

The Activ8 curriculum, designed in partnership with the hospital's Multi- Disciplinary Team (MDT), is tailored to facilitate the recovery of our young people, equipping them with the skills essential for their future transitions. Drawing inspiration from Maslow's Hierarchy of Needs and acknowledging our students' Adverse Childhood Experiences (ACEs), the curriculum recognises the intertwining of psychological, educational, and physiological needs. With its foundation in the Trauma-Informed Care model, it's crafted to be responsive to the daily fluctuations in these needs, ensuring they're addressed holistically.
