Specialist adolescent mental health care is closer than you think

A CAMHS inpatient service centrally located within a 2 hour drive for 49% of England’s population
Expert care under one roof

With 110 beds across 11 medium and low secure wards, FitzRoy's strength is its size, enabling us to provide world class facilities and resources under one roof, with an in-house MDT unrivalled in scale.

Who we help
Our Child and Adolescent Mental Health Services (CAMHS) pathway is designed for boys and girls aged 13 to 18 with complex mental health disorders with severe emotional and behavioural difficulties, intellectual disabilities, mental illness and autistic spectrum disorders.

As experts in CAMHS, we are able to treat a wide range of disorders, including the most challenging and complex.
"Our aim is simple, to improve the lives and outcomes for the young people we care for, equipping them with skills required to live as independently as possible, closer to communities of their choosing."

CAMHS Clinical Director
